Summary

My name is HARIKRISHNAN KB. Currently pursuing B.Tech in Computer Science Engineering from College of Engineering and Management Punnapra, Under Kerala Technological University. Currently I am a fourth-year student completing 7th semester.

My passion for programing and web designing had always dragged me to do something new & this drag had brought me here. I'm a B.Tech student and I wish to make use of my passion for innovative creations. Ever since my childhood, I was interested in coding & was always keen to do something different.

I'm glad that I had already got some projects on web designing and is looking forward for more opportunities. I strongly believe that my quest to explore my passion is the strength behind my success. I'm also confident that it would help me to make my works better. All My projects are available at github and those who wish to go through it, please kindly visit my github account.
